[Unit 5 Caxton Trading Estate, Printing House Lane, Hayes, UB3 1BE](#)

Globe Packaging has long been established as a leading mainstream distributor of packaging products to customers throughout the United Kingdom.

We are committed to offering a diverse range of industry standard packaging products at market leading prices, whilst offering exceptional service levels. All orders placed by 4pm are delivered to you on the following working day, with free next working day delivery on all orders over £50 (exc VAT).

Our specialised team has years of experience and expertise in brand design and bespoke packaging solutions, as well as industry standard solutions. Simply call us on 0345 224 3691 and find out more about how to enhance your brand with tailored bespoke packaging to suit your business requirements.

We understand the importance of being environmentally friendly, and do stock a full range of 100% recyclable and 100% recycled products, as well as our standard range. Whether you are in need of packaging supplies for your business requirements or for personal demands, our vast range of products represents the best value for money online.

Our aim is clear - to service our customers needs in the most efficient, caring and cost efficient manner, with next working day delivery on all orders placed by 4pm.

You can place orders on our website or by calling us on 0345 224 3691. Alternatively you can email us on [sales@globepackaging.co.uk](mailto:sales@globepackaging.co.uk).

If you would like to view and/or collect any goods, you are most welcome to visit our trade counter in Hayes (Unit 5 Caxton Trading Estate, Printing House Lane, Hayes, Middlesex, UB3 1BE). Our trade counter is open Monday - Friday between 9am and 5:30pm.

# Bubble Wrap

## Small Bubble Wrap

Item Code	Size (width & length)	No of rolls per bundle
SB1500100	1500mm x 100 metres	1 roll per bundle
SB1200100	1200mm x 100 metres	1 roll per bundle
SB1000100	1000mm x 100 metres	1 roll per bundle
SB750100	750mm x 2 x 100 metres	2 rolls per bundle
SB600100	600mm x 2 x 100 metres	2 rolls per bundle
SB500100	500mm x 3 x 100 metres	3 rolls per bundle
SB300100	300mm x 5 x 100 metres	5 rolls per bundle

Small bubble wrap is available in bundles as displayed. Each roll contains 100 metres of bubble wrap as industry standard. Available in 300mm, 500mm, 600mm, 750mm, 1000mm, 1200mm & 1500mm widths. Manufactured in the UK and Euro branded, produced to the highest standards. The diameter of the bubbles in small bubble wrap is approximately 10mm.

## Large Bubble Wrap

Item Code	Size (width & length)	No of rolls per bundle
LB150050	1500mm x 50 metres	1 roll per bundle
LB120050	1200mm x 50 metres	1 roll per bundle
LB100050	1000mm x 50 metres	1 roll per bundle
LB75050	750mm x 2 x 50 metres	2 rolls per bundle
LB60050	600mm x 2 x 50 metres	2 rolls per bundle
LB50050	500mm x 3 x 50 metres	3 rolls per bundle
LB30050	300mm x 5 x 50 metres	5 rolls per bundle

Large bubble wrap is available in bundles as displayed. Each roll contains 50 metres of bubble wrap as industry standard. Available in 300mm, 500mm, 600mm, 750mm, 1000mm, 1200mm & 1500mm widths. Manufactured in the UK. The diameter of the bubbles in large bubble wrap is approximately 20mm.

## Biodegradable Bubble Wrap

### Oxo-Degradable

Item Code	Size (width & length)	No of rolls per bundle	Colour
SBBIO500	500mm x 3 x 75M	3 rolls per bundle	Green
SBBIO750	750mm x 2 x 75M	2 rolls per bundle	Green
SBBIO1500	1500mm x 75M	1 roll per bundle	Green

### Fully Biodegradable

Item Code	Size (width & length)	No of rolls per bundle	Colour
SBBIO40025GR	400mm x 4 x 25M	4 rolls per bundle	Green
SBBIO40050GR	400mm x 4 x 50M	4 rolls per bundle	Green
SBBIO40075GR	400mm x 4 x 75M	4 rolls per bundle	Green
SBBIO50050GR	500mm x 3 x 50M	3 rolls per bundle	Green
SBBIO500100GR	500mm x 3 x 100M	3 rolls per bundle	Green
SBBIO100050GR	1000mm x 50M	1 rolls per bundle	Green

Biodegradable bubble wrap is an excellent solution for businesses looking for an environmentally friendly solution for protection during transit and storage. Oxo-degradable bubble wrap degrades over a number of years, when exposed to sunlight, breaking it down into dust sized particles over time. Fully biodegradable bubble wrap is an innovative product introduced by the SEJ group and degrades by the process of biodegradation over a period of time, regardless of whether its exposed under sunlight, once it goes underground into landfill. It only starts to biodegrade once it goes into landfill conditions, extending the shelf life of the product for businesses. Fully biodegradable bubble wrap also biodegrades in full, there are no particles left over whatsoever.

# Bubble Wrap

## Paper Bubble Wrap

Item Code	Size (width & length)	Colour
PBW50070	500mm x 70M	Brown
PBW75070	750mm x 70M	Brown

Paper bubble wrap rolls (also known as Formpack rolls) are made from 100% recyclable paper, and represent an eco-friendly 100% recyclable paper packaging solution. The paper is embossed and padded for extra protection in transit, made with a 125gsm thickness.

## Jiffy Branded 'Straight Tear' Bubble Wrap

Item Code	Size (width & length)	Type	No of rolls per bundle
SB_JIFFY_1500100	1500mm x 100M	Jiffy Straight Tear Small Bubble	1 roll per bundle
SB_JIFFY_1200100	1200mm x 100M	Jiffy Straight Tear Small Bubble	1 roll per bundle
SB_JIFFY_750100	750mm x 100M	Jiffy Straight Tear Small Bubble	2 rolls per bundle
SB_JIFFY_500100	500mm x 3 x 100M	Jiffy Straight Tear Small Bubble	3 rolls per bundle
SB_JIFFY_300100	300mm x 5 x 100M	Jiffy Straight Tear Small Bubble	5 rolls per bundle

Jiffy bubble wrap is a premium bubble wrap, branded by Jiffy (Pregis). We are proud to be one of the main authorised distributors of Jiffy products in the UK. The small bubble wrap is also a 'straight tear' bubble, meaning it can be torn by hand in a straight line. Available in 500mm, 750mm and 1500mm widths in both small bubble and large bubble options.

## Anti Static Bubble Wrap

Item Code	Size (width & length)	No of rolls per bundle
SB_AS_1500	1500mm x 100M	1 roll per bundle

## Jiffy Furniguard & Furnisoft

Item Code	Size (width x length)	Type	Description
JFSFT	1200mm x 100M	Jiffy Furnisoft	Bubble Laminate
JFGRD	1200mm x 100M	Jiffy Furniguard	Bubble Laminate
FURNIMASTER	1200mm x 100M	Furnimaster Generic	Bubble Laminate

Jiffy furnisoft and furniguard are used as alternative material to standard bubble / foam and offer enhanced protection for furniture products.

Furni-GUARD is a sandwich construction with Astro Bubble laminated to a printed LDPE film on one side and a simulated paper LDPE on the other side. Furni-GUARD offers increased strength, puncture resistance and cushioning protection when compared to regular bubble or paper blankets. Ideal for domestic, business and overseas removals, furniture manufacturers, wholesalers and retailers.

Furni-SOFT is the latest addition to the Furni range, designed specifically to protect furniture with delicate surfaces from knocks, scuffs and abrasion. Furni-SOFT combines all the protective qualities of Furni-GUARD, with an extra gentle, non-abrasive layer. Customers looking for a modern alternative to woolen blankets have been impressed with the presentation and protection Furni-SOFT has to offer. Furni-master is a generic laminated bubble blanket product for the furniture/removals industry, made from a combination of bubble wrap and LDPE paper in a sandwich construction.

JF50075	500mm x 3 x 75M	4mm	3

Jiffy foam rolls available in a large array of widths, depths and sizes. Foam rolls are used widely for protection, but also as a form of underlay in the construction industry.

We stock the 1.5mm thickness in volume, as this is the most popular thickness, and can always dispatch this on a next working day service. Thicknesses of 1mm, 2.5mm and 4mm are also available from us with slightly extended lead times.

## Price match guarantee

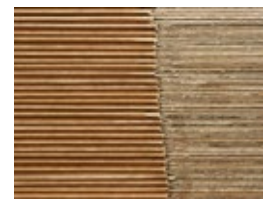

If you find a better offer for the same product elsewhere online, give us a call at 0345 224 3691 & we'll match or even beat it.

*Terms & conditions apply.*

## Boxes - Single Wall

A large array of sizes of single wall cartons available from stock. These cartons are all held in stock, and available for next day distribution. Perfect for light use, shipping, warehouse use etc.

## Boxes – Archive Boxes

Item Code	Description	Size (Inches)	Size (mm)	Pallet Qty
ARCH1	A4 Archive Box	15x12x9"	395x310x255	400

One piece archive boxes with integral lids. Made from toughened 150 k/t corrugated, these boxes can easily be stacked on top of each other. The sides of the boxes have TRIPLE thickness once assembled, making them perfect for stacking/racking once full. The boxes also have handles making them easy to carry. They are supplied as flatpacked die cut boxes in one piece with integral lids, and are easy to assemble.

## Boxes – Long/Tall Boxes – Golf Clubs/Umbrellas

Item Code	Size (inches)	Size (mm)	Board	Pallet Qty
SW380505	5x5x38 SW Umbrella	130x130x980	150KT/B	600
SWGOLF	5x5x49 SW Golf	130x130x1245	150KT/B	600

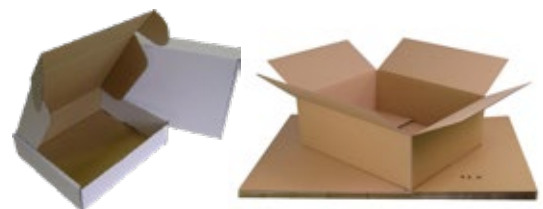

Specialist boxes to hold golf clubs, umbrellas and other long/thin items. These boxes are made from high grade 150gsm kraft, hence are extremely sturdy and strong, even though they made with a single wall construction. A good cost effective solution for sending these type of items via courier.

## Boxes - Max Size Royal Mail Small Parcels

Item Code	Size (External)	Size (Internal)	Type	Pallet Qty
RMWHITE	440x349x79mm	419x338x72mm	0427 White	800
RMDEEP	349x249x159mm	342x242x145mm	0201 Brown	1000
RMOLD	449x349x79mm	442x342x66mm	0201 Brown	600
RMNEWOCT	449x349x159mm	442x342x145mm	0201 Brown	600
RMNEWOCTWH	449x349x159mm	442x342x145mm	0201 White	600
DWRMNEW	449x349x159mm	442x342x142mm	0201 Brown DW	360

The Royal Mail 'small parcel' regulations originally came into force on 1st April 2013. These stated that the maximum external dimensions of a box must be 450mm x 350mm x 80mm, or alternatively 350mm x 250mm x 160mm, for the box to qualify as a small parcel. Both these sizes are therefore held in stock. A further change was made on 1st October 2014, in which these sizes were combined, and the new regulation states that the maximum size of a box can be 450mm x 350mm x 160mm to qualify as a small parcel. This size is also held in stock. An exception to this rule is 'cube boxes' as long as they are less than 160mm x 160mm x 160mm. All boxes stated in the table above qualify as 'small parcels' when sent using the royal mail service, and have been manufactured to the specific maximum sizes allowed under their regulations.

## Boxes – PIP Large Letter Die-Cut Interlocking White Postal Boxes

Item Code	Size (External)	Size (Internal)	Style	Pallet Qty
LLWHT1	166x114x24mm	160x110x20mm	0427 White	6000
LLWHT3	228x164x24mm	222x160x20mm	0427 White	4500
LLWHT2	349x249x24mm	332x239x20mm	0427 White	2000

These excellent quality presentational boxes are die-cut white postal boxes made with fold over ends and earlock lids. They are designed to fit items that will go as a 'large letter' with royal mail, saving on postage costs and ensuring the item stays in one piece in a secure box, and does not move out of proportion. These PIP royal mail large letter boxes are available from stock and are a great solution for businesses looking to save money on postage, while offering a good presentable solution to their customers. The C6 size is also made specific for mobile phones and accessories. The C4 size is a maximum size large letter box – giving maximum dimensions allowed under the royal mail regulations for an item to be sent as a large letter.

## Boxes – Maltese Cross Style Large Letter Boxes

Item Code	Size (External)	Size (Internal)	Size Reference	Pallet Qty
MALTC4	349x249x24mm	337x237x20mm	C4 max royal mail	2400
MALTFBA	325x224x24mm	321x220x20mm	FBA amazon max	2400
MALTC5	232x172x24mm	222x160x20mm	C5 size	8000
MALTC6	172x122x24mm	160x110x20mm	C6 size	12,000
MALTDL	232x122x24mm	218x108x20mm	DL size	14,000

These 'maltese cross' style die-cut boxes have been specifically made to save on labour time when packing, and provide a quick and cost effective solution for items being sent as large letters through the royal mail large letter postal system, as well as the Amazon FBA 'small envelope' system.

Stocked in a range of sizes as above, all external dimensions of the boxes meet or fall under the maximum dimensions allowed under royal mail large letter regulations. Items placed inside the boxes are able to remain firmly in place without taking the packaging out of proportion, allowing businesses to save on postage costs and ensuring the item stays in one piece in a secure box, and qualifies as a large letter. These boxes are available from stock and are a great solution for businesses looking to save money on postage and labour, while offering a standard presentational solution. Extremely easy and quick to pack with.

## Boxes – White Postal Style Cartons

Item Code	Size (Inches)	Size (mm)	Style/Grade	Pallet Qty
PB02	5.5x5x2"	140x130x50mm	0427 B 125WK/T	1100
PB04	8x4.75x2"	200x120x50mm	0427 B 125WK/T	1000
PP4	8.5x6x1.6"	218x152x42mm	0426 B 125WK/T	3300
PB05	10x8x2"	250x210x50mm	0427 B 125WK/T	500
PB06	10.5x7x3"	270x180x80mm	0427 B 125WK/T	500

SWECOM03	9x6x3.5"	222x150x88mm	Crash lock base, peel & seal, 150K/T	2400
SWECOM04	11.5x8x4"	290x208x95mm	Crash lock base, peel & seal, 150K/T	1200
SWECOM07(*)	4x4x3"	110x100x73mm	Crash lock base, peel & seal, 150K/T	4500
SWECOM01(*)	7x4x2"	180x100x50mm	Crash lock base, peel & seal, 150K/T	4000
SWECOM05(*)	13x8.5x6"	330x220x150mm	Crash lock base, peel & seal, 150K/T	1000

(\*) Note the items marked with \* are not stocked in our main depot, extended lead times and MOQ's apply.

E-commerce postal boxes are produced specifically with speed and ease of packing in mind. They are quick and easy to construct with a hard crash lock base, and contain a peel and seal lip for easy closure. E-commerce boxes are proven to improve packing speed by up to 70% when compared to traditional 0201 box designs. The boxes are made from an enhanced 150K/T board to ensure adequate protection in transit, and to help with fast and easy construction. They also contain ripa strips to enable easy opening by end-consumers, and easy decompression back into a flat box. Ecommerce boxes represent a modern, eco-friendly and speedy solution to send small to medium size items in transit.

## Boxes – Amazon Shipping SFP & FBA Max Size Boxes

### Amazon FBA Specific Sizes

AM6	AS/SFP x-large parcel	600x600x1200mm	594x594x1194mm	200

Our amazon specific range is a stock range of boxes with specific sizes that have been manufactured to meet the maximum sizes allowed under the Amazon shipping & Amazon FBA (fulfillment by Amazon) guidelines, details as tabulated above.

## Boxes – Shell & Slide Cartons

Item Code	Size (Inches)	Size (mm)	Board / Size	Pallet Qty
SSBOXSMALL	7x4.7x2"	181x120x49mm	150WK/T – SMALL	1000
SSBOXMED	11x7x2"	279x181x51mm	150WK/T – MEDIUM	600
SSBOXLRG	14x11x2"	360x280x50mm	150WK/T – LARGE	300

Shell and slide foam lined cartons are an excellent solution to businesses looking for a ready made carton with internal protection to prevent damage from transit or storage. These cartons are internally lined with thick foam, and the foam lined interior of box simply slides out to enable the product to be safely placed inside. Helps to increase efficiency during packing and reduces/eliminates damages to products during transit. These boxes are high quality boxes, made from 150 WK/T material, and are white in colour to enhance the presentational feel of the carton.

## Boxes - Heat Treated Pallet Containers

Item Code	Item Type	Size
PLB01	1/2 Europa Box With Heat Treated Pallet	770x570x660mm
PLB01_W	1/2 Europa Box Without Pallet	770x570x660mm
PLB02	1/1 Europa Box With Heat Treated Pallet	1170x770x660mm
PLB02_W	1/1 Europa Box Without Pallet	1170x770x660mm
PLB03	1/2 Container Box With Heat Treated Pallet	1075x870x550mm
PLB03_W	1/2 Container Box Without Pallet	1075x870x550mm
PLB04	1/1 Container Box With Heat Treated Pallet	1070x870x900mm
PLB04_W	1/1 Container Box Without Pallet	1070x870x900mm

Export ready rigid cardboard pallet boxes consisting of tray, cap and sleeve. These are highly recommended for export of products, and very useful for packing multiple items or large items for pallet distribution. These are manufactured from premium double wall board in a stitched format to ensure maximum strength and durability. Widely used for distribution via pallet carrier, as well as distribution into Amazon distribution centres.

## Boxes – BDC & BDCM Cartons – Fashion

Item Code	Known As	Size (mm)	Print Colour	Board Grade	Pallet Qty
PEBDC142	BDC1	610x280x356mm	Black	140KTb	400
PEBDC143	BDC2	406x280x356mm	Brown	140KTb	800
PEBDC144	BDCM1	595x295x388mm	Blue	140KTb	400
PEBDC145	BDCM2	400x300x400mm	Blue	140KTb	800
PEBDC146	BDCM3	597x292x190mm	Blue	140KTb	400
PEBDC147	BDCM4	394x292x191mm	Blue	140KTb	600

\*Note that these are non stock items hence extended lead times may apply

BDC / BDCM boxes are widely used in the fashion and retail industry, as a uniform carton that fits perfectly on to shelving, with a perforated section on the exterior of the box that can be opened, allowing pick and pack to occur flawlessly.

## Boxes - Wardrobe Boxes

Item Code	Size (Inches)	Size (mm)	Board	Pallet Qty
WARD_NEW	20x18x38" DW	508x457x960	150KT/BC	100
WARD1XL	20x18x49" DW	508x457x1245	150KT/BC	90

Wardrobe garment boxes represent an excellent solution for movement and storage of clothes, when travelling or when moving home. Wardrobe boxes are designed in such a way that allows consumers to effortlessly hang their clothes on a plastic hanging rail (included in the sale). This helps to transport and store clothes without getting them creased or dirty.

## Boxes – Moverite C Flute Moving Boxes With Handholes

Item Code	Size (Inches)	Size (mm) - External	Description / Specification	Pallet Qty
MOVERITE047BOX	20x12x12"	520x300x300mm	C Flute, Printed 4 Panels, Handholes, 150K/T	320
MOVERITE108BOX	20x20x12"	520x520x300mm	C Flute, Printed 4 Panels, Handholes, 200K/T	160

The MoveRite brand of single wall moving boxes are produced in a high specification C flute, giving them superior performance over standard single wall boxes, and enabling them to hold more weight. Very popular with end consumers, these are widely sold on intermediary marketplaces such as Amazon and Ebay, and are now used as a widespread and accepted moving solution across the UK. They are printed on 4 panels as pictured, with instructions on how to use, and with sections that can easily be marked to display the contents of the box and where each box should be positioned during a move. They also contain handholes for easy lifting and moving.

## Boxes – Cardboard Layer Pads

Item Code	Size (mm)	Description / Specification	Pallet Qty
LPSW12001000	1200mm x 1000mm	Single wall pallet layer pads, 125K/T B	500
LPDW12001000(*)	1200mm x 1000mm	Double wall pallet layer pads, 125K/T BC	250

(\*) Note the items marked with \* are not stocked in our main depot, extended lead times and MOQ's apply.

Cardboard layer pads are effectively sheets of board, primarily used for separating and protecting layers of product on pallets, and/or to wrap around and protect products. They are also widely used as backing material for arts/crafts and posters/wrapping

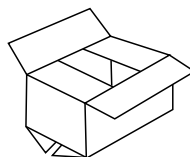

## Made To Measure Boxes

As well as stocking the full range of industry standard sizes of boxes/cartons, we are able to provide bespoke cartons for your business with your own dimensions, in various different styles both with and without print. Minimum quantities apply, depending on size.

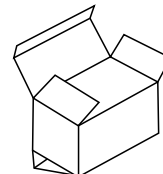

Shown here are our most popular made-to-measure Fefco style cartons, as an example:

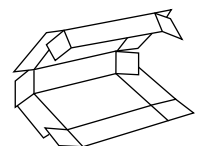

Name: FEFCO STYLE 0201  
Description: Regular lap end case

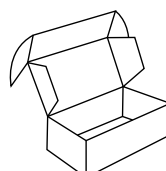

Name: FEFCO STYLE 0211  
Description: Tuck in top and bottom

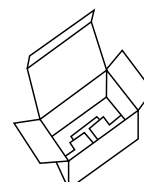

Name: FEFCO STYLE 0409  
Description: Five panel wrap

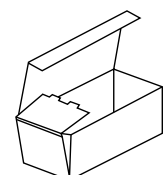

Name: FEFCO STYLE 0427  
Description: Regular lap end case with fully overlapping flaps

Name: FEFCO STYLE 0215  
Description: Tuck in top

Name: FEFCO STYLE 0421  
Description: Folding box with locking sides

## Boxes – Book Wraps / Postal Wraps

# Eco-Friendly Book Wraps by Tenvowrap

These Tenvowrap® branded book wrap/postal wrap boxes are made from high quality corrugated cardboard, and are depth adjustable when wrapping. All contain red peel and seal strips for easy construction, and a rippa strip for your customer to rip open with ease once the product reaches them.

### 100% Recycled & 100% Recyclable

Tenvowraps represent a fully environmentally friendly solution, as printed on the wrap. The brand Tenvowrap reflects that the product is made from 100% recycled material and is 100% recyclable. It has stemmed from the word 'Envo-Wrap', the 'T' being present as it is part of the Triplast postal wrap range.

Tenvowrap book wraps represent an excellent solution for e-commerce businesses that send items in the post/via courier.

Item Code	Size Ref	Internal Size	Specification	Brand	Pallet Qty

Document Enclosed Wallets. Great for enclosing documents in parcels or pallets, and widely used in most industries and offices. Available in 'document enclosed' printed versions, or plain versions, and in sizes ranging from A4 to A7.

## Edge & Corner Protection

### Cardboard Edge Guards

Item Code	Item Description & Size	Wall Thickness	No in pack
EDG010	Edge Guards 35mm x 35mm x 1000mm	3mm	100
EDG012	Edge Guards 35mm x 35mm x 1200mm	3mm	100
EDG015	Edge Guards 35mm x 35mm x 1500mm	3mm	100
EDG5012	Edge Guards 50mm x 50mm x 1200mm	3mm	100

Cardboard edge guards are an excellent and cost effective way of protecting edges on pallets and goods. They are available in various widths and lengths and can be cut to size with relative ease.

### Jiffy Ocean Green - Foam U-Channel Edge Guards

Item Code	Type	Width (Apex)	Length Of Strips	Boxed Qty
FUP0515JF	U-Profile U15	5-15mm	2 Metres	250 Strips (500M)
FUP1525JF	U-Profile U25	15-25mm	2 Metres	140 Strips (280M)
FUP2535JF	U-Profile U35	25-35mm	2 Metres	90 Strips (180M)
FUP3545JF	U-Profile U45	35-45mm	2 Metres	80 Strips (160M)
FUP4560JF	U-Profile U60	45-60mm	2 Metres	50 Strips (100M)
FUP6080JF	U-Profile U80	60-80mm	2 Metres	40 Strips (80M)
FUP80100JF	U-Profile U100	80-100mm	2 Metres	32 Strips (64M)

Jiffy ocean green foam edge guards in 'U-channel' formats, also widely known as foam pallet protectors / strips. These are an excellent and cost efficient solution to protecting pallets and items in transit, ensuring that edges do not get damaged and that the goods are held together in a solid form. Can be used in conjunction with pallet strapping and stretch wrap. The Jiffy ocean green range is made from 100% recycled material and is 100% recyclable. All sizes are available in 2 metre lengths, which can be easily cut down using a knife or scissors.

### Jiffy Ocean Green – Foam L-Profile Edge Guards

Item Code	Type	Width	Length Of Strips	Boxed Qty
FLP5050JF	L-Profile L50	50-50mm	2 Metres	250 Strips (480M)
FLP7575JF	L-Profile L75	75-75mm	2 Metres	105 Strips (210M)

Jiffy ocean green foam edge guards in 'L-profile' formats, also widely known as foam pallet protectors / strips. These are an excellent and cost efficient solution to protecting pallets and items in transit, ensuring that edges do not get damaged and that the goods are held together in a solid form. Can be used in conjunction with pallet strapping and stretch wrap. The Jiffy ocean green range is made from 100% recycled material and is 100% recyclable. All sizes are available in 2 metre lengths, which can be easily cut down using a knife or scissors.

### Jiffy Ocean Green – Foam Edge Corners

Item Code	Type	Width (Apex)	Boxed Qty	Item Code
FUC1525JF	Corners U25	15-25mm	600 Corners	FUC1525JF
FUC2535JF	Corners U35	25-35mm	400 Corners	FUC2535JF
FUC3545JF	Corners U45	35-45mm	300 Corners	FUC3545JF
FUC4560JF	Corners U60	45-60mm	200 Corners	FUC4560JF
FUC6080JF	Corners U80	60-80mm	160 Corners	FUC6080JF

This range of Jiffy Ocean Green foam corner protectors are lightweight and economical, available in a large array of sizes. Foam corner edge protectors are U shaped and are perfect for protecting items in parcels, pallets as well as for picture frames and protection of sharp edges for children. The Jiffy ocean green range is made from 100% recycled material and is 100% recyclable

### Polystyrene Corners

Item Code	Description	Size	Pack Size
POLYCRN	Polystyrene Corners In 4's	62x62x60mm	840 Corners

These polystyrene corners are packed in sets of 4 corners as pictured, which are easy to split. You require 8 corners (2 sets of 4) per package / item you are packing. The quality of these corners is excellent (EPS70 grade) and they are suitable for most ceramic and delicate items.

## Envelopes - Board Back

Item Code	Item Description	Size (mm)	No per box
BBC3	Manila Board Back Envelopes C3 Size	457x324mm	50
BBC4	Manila Board Back Envelopes C4 Size	324x229mm	125
BBC5	Manila Board Back Envelopes C5 Size	229x162mm	125
BBC6	Manila Board Back Envelopes C6 Size	162x114mm	250

Board back envelopes are perfect for businesses to send documents and items without them getting creased in the post. Made with a sturdy board back, they have the words 'do not bend' written on the front of the envelopes.

## Envelopes – All Board

Item Code	Item Description	Size(mm)	Boxed In
ABEC4_WH	White All Board Envelopes C4 Size	324x229mm	100
ABEC5	White All Board Envelopes C5 Size	229x162mm	200

All board envelopes offer the supreme protection when posting documents. They have stiff board on both sides, ensuring the document arrives in a safe and pristine condition, without being penetrated or bent.

JPB6	295mm x 458mm	50 per box	Padded PJB6
JPB7	341mm x 483mm	50 per box	Padded PJB7

Jiffy Green padded bags are an eco-friendly form of protective packaging, made entirely from paper based product. They provide an extremely strong protective form of protection when sending items in the post or via courier, ensuring they arrive in good condition to your customer. They are made from a tough paper outer with a double glued bottom flap, without any side seams. Manufactured from 100% recycled fibre paper lining, these bags are 100% recyclable, biodegradable and compostable.

## Envelopes – Jiffy Expandable Protective Paper Mailers – Hexapand

Item Code	Internal Size (WxLxGusset)	External Size (WxLxGusset)	Boxed Qty	Jiffy Size Code
JFHEX1	195x250x140mm	220x255x140mm	200 per box	Size 1
JFHEX2	240x195x140mm	265x300x140mm	200 per box	Size 2
JFHEX3	265x310x140mm	290x315x140mm	100 per box	Size 3

\*All mini rolls are produced using in-house machinery/conversion. Lead time of 3-5 working days applies, minimum production run is one pallet per spec/size.

These are excellent quality imitation kraft paper rolls, ribbed & machine glazed and with a weight of 70gsm. Suitable for most industrial businesses, and widely used by on-line sellers for wrapping and packing

**Produced in-house using high speed machinery with advanced modern technology.**

## Labels – Integrated Labels

Item Code	Size Ref	Label Size On A4 Sheet	Label Positioning on A4 Sheet	No. Of Sheets Per Box
INTEGA	S11	110mm x 80mm	10mm from left, 25mm from top	1000
INTEGB	S14	110mm x 60mm	10mm from left, 49mm from top	1000
INTEGC(*)	S17	150mm x 100mm	10mm from left, 10mm from top	1000
INTEGD(*)	S19	160mm x 105mm	25mm from left, 25mm from bottom	1000

(\*) Note the items marked with \* are not stocked in our main depot, extended lead times and MOQ's apply.

Integrated labels are a great solution for e-commerce businesses. These work well with the ebay and amazon platforms, and allow sellers to print a packing slip on a A4 sheet with a peel-off address label integrated within the sheet. The label is then peeled off to act as the shipping label, and the packing slip placed inside the package.

## Labels - A4 Sheets

**\* ALL SIZES HELD IN STOCK IN VOLUME \***

## Labels – Thermal Fanfold Labels

Item Code	Size	Description	Stack Qty	Boxed Qty
LBTHERM4X6	4"x6"	Fanfold thermal labels 4x6" (102mm x 152mm)	1000	8000 (8 stacks)
LBTHERM4X8	4"x8"	Fanfold thermal labels 4x8" (102mm x 210mm)	750	1500 (2 stacks)

Fanfold thermal labels in 90gsm thickness, widely used for courier and royal mail dispatch, as well as for address labels, barcoding, product labelling etc. Fanfold labels are used for high volume operations in place of thermal labels on rolls, as they are more cost effective, easier to use in bulk, have less changing time and they self stack at the end of the printing run. Each label is separated by perforation to make them easy to separate at the end of the run.

**WIDE RANGE OF LABELS AVAILABLE IN ALL SIZES, FOR INKJET AND LASER PRINTERS**

## Layflat Tubing (Polythene)

### Layflat Tubing - 250 Gauge

Item Code	Width Of Roll	Thickness	Length
LAYFLAT2"250G	2" (50mm)	250 Gauge	336M
LAYFLAT3"250G	3" (76mm)	250 Gauge	336M
LAYFLAT4"250G	4" (102mm)	250 Gauge	336M
LAYFLAT5"250G	5" (127mm)	250 Gauge	336M
LAYFLAT6"250G	6" (152mm)	250 Gauge	336M
LAYFLAT7"250G	7" (178mm)	250 Gauge	336M
LAYFLAT8"250G	8" (203mm)	250 Gauge	336M

LAYFLAT16"500G	16" (406mm)	500 Gauge	168M
LAYFLAT18"500G	18" (457mm)	500 Gauge	168M
LAYFLAT20"500G	20" (508mm)	500 Gauge	168M
LAYFLAT22"500G	22" (558mm)	500 Gauge	168M
LAYFLAT24"500G	24" (610mm)	500 Gauge	168M

Polythene layflat tubing is a transparent polythene tubing used for protecting/collating/wrapping various objects. Layflat tubing is made from high quality polymers and offers strength, lubricity, chemical inertness, and biocompatibility. Usually sealed with a heat sealer or stapler. Available in all widths from 2" to 24", and in both 250 gauge and 500 gauge thicknesses.

**HEAT SEALER FOR LAYFLAT TUBING AVAILABLE - CALL US FOR DETAILS!**

## Loose Fill/Air Bags - Packing Supplies

### Loose Fill Peanuts

Item Code	Description	Colour	Size
LFECO01	Ecoflo Biodegradable Loose Fill	White	15 Cubic Ft
LFECO01_MIXC	Ecoflo Mixed Colour Biodegradable Loose Fill	Mixed Colour	15 Cubic Ft
LFULTRA01	Ecoflo Ultra Biodegradable Loose Fill (like polystyrene)	Blue	15 Cubic Ft

### Biodegradable Pre-Inflated Air Pillows

Item Code	Description	Size	Brand
AIRGL001	Biodegradable air pillows, 100x200mm	15 cubic feet	Opus Bio
AIRGL002	Biodegradable air pillows, 200x200mm	15 cubic feet	Opus Bio
AIRGL003	Biodegradable air pillows, 400x50mm	15 cubic feet	Opus Bio
AIRGLQUILT	Biodegradable bubble quilt, 400mm wide	15 cubic feet	Opus Bio

### Speedman Loose Fill Paper System

Item Code	Description	Roll Size	Paper Thickness
SPEEDBOX	Speedman loose fill paper box system (Roll of paper loose fill in dispenser box)	390mm x 450M	70gsm

A fully environmentally friendly and paper based loose fill solution, branded by Speedman. The system involves a roll of 100% recycled paper, size 390mm x 450M, inside an easy to use dispenser box as pictured. Ideal for e-commerce and industrial businesses looking for a low cost paper fill solution to their packing/cartons.

**\* AIR PILLOW TECHNOLOGY SYSTEMS ARE ALSO AVAILABLE FROM STOCK. AVAILABLE ON FOC LEASE BASIS OR OUTRIGHT PURCHASE, ALONG WITH ALL THE FILM ROLLS. PLEASE SEE MACHINERY SECTION OF CATALOGUE \***

A large selection of mailing bags, all fully opaque and 60µm in thickness/strength with 40mm peel & seal lips. Perfect for most on-line businesses and mailhouses to ship their goods in, forming a very quick, professionally opaque yet affordable solution. Also sold by re-sellers on sources such as amazon and ebay. The bags are packed into boxes and also separated in 100's. As one of the UK's leading importers of mailing bags, you will find our merchant prices extremely competitive.

(\*) Note the items marked with \* are not stocked in our main depot, extended lead times and MOQ's apply.

Machine pallet wrap available in a large array of specifications, in both 150% stretch as well as power-pre 250% stretch capacities.

The stretch capacity of machine film is the maximum percentage capacity that the film can stretch to, during its wrapping cycle on the machine, to maximise the meterage from the roll (eg. Using the machine at a setting of 150% stretch capacity can theoretically make each metre of film stretch to 1.5 metres, assuming the film has 150% stretch capacity). Certain machinery (usually entry-level) is only designed to work with standard 150% capacity stretch film, whilst other machinery (usually higher end) is designed to work with power-pre stretch film that has a stretch capacity of 250% or more. The settings applied to your machine will then determine which stretch capacity you need.

For operations that wrap more than 30 pallets a day, we always recommend using power-pre machine pallet wrap film with a 250% stretch capacity. The price of pallet wrap machinery with a 250% capacity stretch film is higher than machines that take a 150% capacity stretch film, hence its only worth the additional capital expenditure if your business wraps more than 30 pallets a day on average. You then generally will make the difference back in film / consumable savings over a 12 month period, due to the additional stretch generated on the film.

For help and advice on your machine pallet wrap requirements, and on pallet wrap machinery, please speak to one of our machine sales specialists, who will be more than happy to help.

### Hand Stretch Wrap - Mini Rolls

Item Code	Type/Size	No of rolls per box	Colour
PWMINIC	Mini Wrap 100mm x 150M	40 rolls	Clear
PWMINIB	Mini Wrap 100mm x 150M	40 rolls	Black

Mini pallet wrap rolls for easy dispensing and light use.

### Hand Pallet Stretch Wrap Dispenser – SR80

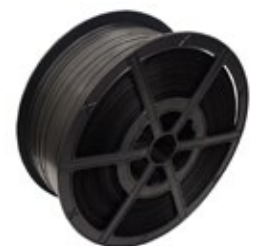

Item Code	Item Description	Suitable For	Pack Qty
SR80	Hand pallet wrap dispenser	400mm/500mm Rolls	1 Dispenser

## Pallet Strapping & Warehouse Tools

### Polypropylene (PP) Hand Strapping Coils

Item Code	Item Description	Size / Specs	Pack Qty
WST001	Coil of 12mm Wide Hand Strapping	1000M, 310kg break	1 coil
WST002	Coil of 12mm Wide Hand Strapping	1500M, 210kg break	1 coil
WST003	Coil of 12mm Wide Hand Strapping	2000M, 135kg break	1 coil

Polypropylene strapping is perfect for strapping most pallets, available in different break strains for pressure points. Can be used with tools (tensioner/sealer or combination tool) and metal seals, or without tools (by using metal buckles). The use of tools naturally increases the tension the on the strapping making it more effective. For advice and guidance on strapping, please call our product specialists on 0345 224 3691.

If you are using the coil with a machine (ie. A semi automatic strapping machine or a fully automatic strapping machine), then you will need MACHINE strapping coils. We have listed the most popular selling machine coil in the table, which is always held in stock. We do also stock a large variety of other machine coils in various widths and thicknesses - please enquire if you require further details.

## Pallet Strapping & Warehouse Tools

### Polypropylene (PP) Machine Strapping Coils

Item Code	Item Description	Size / Specs	Pack Qty
WST111	Coil of 12mm Wide Machine Strapping	3000M, 0.55mm	1 coil

Polypropylene (PP) machine strapping coils are generally used with semi automatic and fully automatic strapping machinery, also stocked by ourselves. Using machine strapping ensures consistency in the tension being applied, as well as safe and secure sealing of the strap without the use of metal seals, and saves significantly on labour time/cost. Recommended for businesses that strap more than 25 parcels a day.

### Polypropylene (PP) Strapping Tools & Trolleys

Item Code	Item Description	Brand
SEALER	Heavy duty sealer tool for 12mm hand strapping	Pro-Series
TENSIONER	Heavy duty tensioner tool for 12mm hand strapping	Pro-Series
COMB	Heavy duty combination tool for 12mm hand strapping	Pro-Series
STRSTAND	Strapping Stand For Polyprop Strapping	Pro-Series
STRTROLY	Strapping Trolley For Polyprop Strapping	Pro-Series

### Polypropylene (PP) Strapping Seals & Buckles

Item Code	Item Description	Brand
METALS	Semi Open Metal Seals 12mm x 25mm	Hand (With Tools)
METALB	Hand strapping metal buckles	Hand (No Tools)
PLASTICB	Hand strapping plastic buckles	Hand (No Tools)

### Polyester (PET) Strapping Coils

Item Code	Item Description	Width x Thickness x Length	Pack Qty
PT40G	Polyester (PET) Strapping Coil 16mm Wide	15.5mm x 0.7mm x 1750M	1 Coil
PT20G(*)	Polyester (PET) Strapping Coil 12mm Wide	12.5mm x 0.6mm x 2500M	1 Coil

(\*) Note the items marked with \* are not stocked in our main depot, extended lead times and MOQ's apply.

Polyester (PET) strapping coils are used for heavy duty applications, often as an alternative to steel strapping. They offer better brake strains and tension/resistance than polypropylene strapping, and are significantly harder wearing as a result.

Polyester (PET) hand strapping coils can either be used with PET hand strapping tools alongside serrated metal seals, or alternatively with friction weld strapping tools. Polyester (PET) strapping is available in widths of 16mm, with all relevant tools for 16mm strapping also held in stock.

### Polyester (PET) Serrated Seals

Item Code	Item Description	Boxed Qty
SER12-SG	Serrated Seals For 12mm Polyester (PET) Strapping	1000
SER16-SG	Serrated Seals For 16mm Polyester (PET) Strapping	1000

Serrated seals are designed for use with polyester (PET) strapping coils. Stocked in versions suitable for 16mm strapping. Must be used with a 16mm sealer tool.

# Pallet Strapping & Warehouse Tools

## Polyester (PET) Strapping Tools

Item Code	Item Description	Brand
KNS16	Heavy Duty Sealer Tool for Polyester (PET) Strapping	Pro-Series
HPT50	Heavy Duty Tensioner Tool for Polyester (PET) Strapping	Pro-Series
SHC16	Heavy Duty Combination Tool for Polyester (PET) Strapping	Pro-Series
PTD406	Strapping Trolley for Polyester (PET) strapping	Pro-Series

The strapping tools that are required/recommended for use with 16mm polyester (PET) strapping coils are a tensioner and sealer, to be used in conjunction with serrated seals. Alternatively, a combination tool can be used (which is a combination of a sealer and tensioner in one), in conjunction with serrated seals. Mobile strapping trolleys are also available to make the process easier, and to move the 'kit' around the warehouse or workspace without difficulty. Another option is to use friction weld strapping tools, which are a significantly faster but a more expensive solution.

## Friction Weld Strapping Tools – For PP & PET Strapping

Item Code	Item Description	Strapping Width	Brand
RXT-12	RXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	12mm	Optimax
RXT-16	RXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	16mm	Optimax

ZXT-12	ZXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	12mm	Optimax
ZXT-16	ZXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	16mm	Optimax
ZXT-19	ZXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	19mm	Optimax

Friction weld strapping tools, available for use with 12mm, 16mm or 19mm strapping. Friction weld strapping tools make strapping parcels and pallets significantly faster and easier than using manual hand strapping tools. Friction weld strapping tools such as the RXT and ZXT do not require the use of seals, and significantly improve and ease and speed of strapping. These tools can be used with both polypropylene (PP) strapping coils as well as with polyester (PET) strapping coils. The Optimax range of strapping tools are a well established and proven solution to help enhance operational efficiency within organisations that strap products, or have a requirement to strap products.

## Steel Strapping Coils

Item Code	Item Description	Width/Thickness/Weight	Pack Qty
STEEL13	Steel strapping coil 13mm	13mm x 0.5mm x 17kg	1 coil
STEEL16	Steel strapping coil 16mm	16mm x 0.5mm x 21kg	1 coil
STEEL19	Steel strapping coil 19mm	19mm x 0.5mm x 25kg	1 coil
STEEL32	Steel strapping coil 32mm	32mm x 0.5mm x 48kg	1 coil

## Fast, efficient & reliable!

All stock lines are held in good volume to guarantee availability for immediate dispatch and next day delivery

## Pallet Strapping & Warehouse Tools

### Steel Strapping Tools

Item Code	Item Description	Brand
SSC04	Steel Strapping Cutter Tool	Pro-Series
TS12	Steel strapping Sealer Tool	Pro-Series
TLS20	Steel strapping Tensioner Tool	Pro-Series
SD32	Steel strapping Dispenser Trolley	Pro-Series
QST19	Steel strapping Combination Tool	Pro-Series

### Steel Strapping – Snap On Seals

Item Code	Item Description	Boxed Qty
SNAPSEAL13MM	Snap On Seals For 13mm Steel Strapping	2000
SNAPSEAL16MM	Snap On Seals For 16mm Steel Strapping	2000
SNAPSEAL19MM	Snap On Seals For 19mm Steel Strapping	2000

Snap on seals are designed for use with steel strapping coils. Available in different versions for 13mm, 16mm and 19mm steel strapping. Must be used with a steel strapping sealer.

## Pallet Top Covers

Item Code	Specifications	Roll Qty
PALTOP	1400mm x 1400mm, 30mu perforated on roll	500 Sheets

Pallet top covers are clear polythene covers designed to cover the tops of most standard, euro and chep pallets. A great solution for covering goods on pallets to prevent water damage and dust.

## Plastic Vest Carrier Bags

Item Code	Type	Size	Thickness	No of Bags Per Box
PVCBW001	White Plastic Vest Carrier Bag	10x15x18"	12Mu	2000
PVCBW002	White Plastic Vest Carrier Bag - Large	11x17x21"	16Mu	2000
PVCBB001	Blue Plastic Vest Carrier Bag - Large	11x17x21"	16Mu	2000

## Polystyrene (Foam) Sheets

Item Code	Dimensions Per Sheet	Type	No Of Sheets Per Pack
EPS701	2400x1200x25mm	EPS70	12 Sheets
EPS702	2400x1200x50mm	EPS70	6 Sheets
EPS710	2400x1200x100mm	EPS70	3 Sheets
EPS703	1200x600x50mm	EPS70	24 Sheets
EPS704	1200x600x25mm	EPS70	48 Sheets
EPS705	600x400x25mm	EPS70	144 Sheets
EPS706	600x400x10mm	EPS70	360 Sheets

A selection of expanded SDN polystyrene sheets (EPS 70). EPS70 expanded polystyrene sheets are used for a large variety of purposes. These include the following: To place between joists to provide insulation, below floor screed, below concrete slabs, for postage & packaging - to protect items from breaking and movement. Perfect for use within the building trade, removals and also warehouse dispatches.

## Polystyrene Corners

Item Code	Description	Size	Pack Size
POLYCRN	Polystyrene Corners In 4's	62x62x60mm	840 Corners

These polystyrene corners are packed in sets of 4 corners as pictured, which are easy to split. You require 8 corners (2 sets of 4) per package / item you are packing. The quality of these corners is excellent (EPS70 grade) and they are suitable for most ceramic and delicate items.

## Polythene Food Bags

### Polythene Food Bags - 100 Gauge Range – Light Duty

Item Code	Size (Inches)	Size (mm)	Thickness	Boxed Qty
POLY0406L	4" x 6"	102x152mm	100 Gauge	1000

SFPLY80019H(*)	800mm	400mm	1067M	19mu
SFPLY90019H(*)	900mm	450mm	1067M	19mu

(\*) Note the items marked with \* are not stocked in our main depot, extended lead times apply.

Polyolefin shrink film is the relatively new alternative to PVC shrink film, and is the most widespread shrink film used, offering the best value for money due to the meterage on the rolls. The film is cleaner to use than PVC, there are no carbon deposits left on the seal blade of the machine, and no harmful fumes given off when sealing. Polyolefin film also offers a significantly higher puncture resistance compared to PVC film, even in lower thicknesses. The film is much more stable at lower ambient temperatures than traditional PVC film and the density of polyolefin film is lower than PVC, making it more cost effective to ship efficiently. Additionally, this polyolefin film contains a minimum of 30% recycled content, hence no PPT is included, whereas PVC film cannot be made using post-consumer waste.

# ProLoc

# High Quality Low Noise Tape

## Brown & Clear

Boasting a thickness of 45mu (45 microns), ProLoc low noise polyprop tape is substantially thicker than standard tape on the market and is made from extra strength low noise glue, avoiding any need to go around the package more than once. Its high strength and adhesion make it ideal for fast-paced, heavy industrial use across dispatch facilities, manufacturers and retailers.

### EXTRA STRENGTH

The extra thickness of 45mu makes ProLoc tape stronger than standard tape.

### EXTRA STICKY

Stickier than normal tape, therefore you will use less tape to secure a package.

### INDUSTRIAL USE

Idea choice for heavy duty industrial use due to the extra thickness.

### SAVE MONEY

Stronger. Stickier. Thicker. Save time and money by using less tape.

## Low Noise Polypropylene Packing Tape – Brown & Clear

Item Code	Colour	Brand & Type	Width & Length	Thickness	Boxed Qty
TLN1062	Brown	ProLoc - Premium Low Noise 2"	48mm x 66M	46mu	36 Rolls
TLN1061	Clear	ProLoc - Premium Low Noise 2"	48mm x 66M	46mu	36 Rolls
TLN2062	Brown	ProLoc - Premium Low Noise 3"	72mm x 66M	46mu	24 Rolls
TLN2061	Clear	ProLoc - Premium Low Noise 3"	72mm x 66M	46mu	24 Rolls
TVIBAC	Brown	Vibac 828 - Premium Low Noise 2"	48mm x 66M	46mu	36 Rolls
TVIBAC2	Clear	Vibac 828 - Premium Low Noise 2"	48mm x 66M	46mu	36 Rolls
TLNPRIMA_B	Brown	Prima - Premium Low Noise 2"	48mm x 66M	45mu	36 Rolls
TLNPRIMA	Clear	Prima - Premium Low Noise 2"	48mm x 66M	45mu	36 Rolls

Premium ProLoc branded low noise tape. These are industrial length 66 metre rolls, and industrial standard. Imported from Greece and made from extra strength low noise glue, this is a superb tape and suitable for all dispatch facilities, online sellers, manufacturers and industrial businesses. A good strong polyprop low noise tape, and one we recommend for all business use. Our most popular selling tape by far.

## Standard Polypropylene Packing Tape – Brown & Clear

Item Code	Colour	Brand & Type	Width & Length	Thickness	Boxed Qty
T1052	Brown	Brown PP packing tape 2"	48mm x 66M	40mu	36 Rolls
T1051	Clear	Clear PP packing tape 2"	48mm x 66M	40mu	36 Rolls
T2061	Brown	Brown PP packing tape 3"	72mm x 66M	40mu	24 Rolls
T2062	Clear	Clear PP packing tape 3"	72mm x 66M	40mu	24 Rolls
T105112	Clear	Clear PP packing tape 1"	25mm x 66M	40mu	72 Rolls

Standard polyprop tape for light business use, manufactured to industrial lengths of 66 metres per roll. For higher volume users, we recommend using ProLoc branded premium low noise tape, which we distribute into most higher usage plants. This is due to its higher quality attributes, leading to lower actual usage as well as higher efficiencies.

## Big Tape – Extra Length Tape

Item Code	Description	Width & Length	Boxed Qty
TBIG1	Big tape low noise clear polyprop	48mm x 150M	36 Rolls
TBIG2	Big tape low noise brown polyprop	48mm x 150M	36 Rolls

BIG tape is a low noise polypropylene tape introduced to improve efficiency and speed of packing. Each roll has 150 metres of tape on it, helping packers change rolls less frequently and therefore increasing efficiency. Should be used with a BIG tape gun.

## Umax Low Noise Tape – Extra Length Tapes

Item Code	Description	Width & Length	Boxed Qty
UMAX1	U-max tape clear low noise polyprop	48mm x 150M	36 Rolls
UMAX2	U-max tape brown low noise polyprop	48mm x 150M	36 Rolls

Umax tape is a premium quality but cost efficient long length low noise tape introduced to improve efficiency and speed of packing. Each roll has 150 metres of tape on it, helping packers change rolls less frequently and therefore increasing efficiency. Should be used with a umax tape gun.

## Low Noise Printed Packing Tapes

Item Code	Description	Width & Length	Boxed Qty
TF1071	Low Noise FRAGILE printed tape	48mm x 66M	36 Rolls
TF1072	Low Noise HANDLE WITH CARE printed tape	48mm x 66M	36 Rolls
TF1081	Low Noise CAUTION printed tape	48mm x 66M	36 Rolls
TS1011	Low Noise CONTENTS CHECKED printed tape	48mm x 66M	36 Rolls

# Tapes

## Low Noise Coloured Packing Tapes

Item Code	Description	Width & Length	Boxed Qty
TRED	Low Noise Red coloured tape	48mm x 66M	36 Rolls
TBLUE	Low Noise Blue coloured tape	48mm x 66M	36 Rolls
TGREEN	Low Noise Green coloured tape	48mm x 66M	36 Rolls
TYELL	Low Noise Yellow coloured tape	48mm x 66M	36 Rolls
TWHITE	Low Noise White coloured tape	48mm x 66M	36 Rolls

## Vinyl Extra Strength Tape

Item Code	Description	Width & Length	Boxed Qty
TVINYL1	Prima branded vinyl tape clear	48mm x 66M	36 Rolls
TVINYL2	Prima branded vinyl tape brown	48mm x 66M	36 Rolls
TVINYL3	Prima Branded vinyl tape white	48mm x 66M	36 Rolls
TCVIN01	KD branded vinyl tape brown	48mm x 66M	36 Rolls
TCVIN02	KD branded vinyl tape clear	48mm x 66M	36 Rolls

Vinyl tape is an extremely strong and heavyweight tape used widely in the removals industry and any type of business where large/heavy packages are required to be absolutely securely taped. This tape is made from Vinyl, as opposed to Polypropylene, which gives it the extra strength.

## Masking Tape

Item Code	Description	Width & Length	Boxed Qty
TM1151	Masking Tape 1"	25mm x 50M	72 Rolls
TM1152	Masking Tape 2"	50mm x 50M	36 Rolls

## Tapes

### Gummed Paper Water Activated Tape

Item Code	Brand	Type	Width & Length	Boxed Qty
GPTWAT1	Xtegra	Standard	48mm x 200M	30 Rolls
GPTWAT2	Xtegra	Reinforced	48mm x 100M	12 Rolls
GPTWAT4	Xtegra	Reinforced	70mm x 100M	6 Rolls
GPTWAT5	Xtegra	Reinforced	70mm x 305M	6 Rolls

Water activated tape, also known as gummed paper tape, is a 100% environmentally friendly solution. The reinforced version of this tape is proven to be the strongest tape in the market once applied, and is not penetrable without tearing the tape. This tape is used with gummed paper tape dispensers (available in electronic or manual versions).

### Bespoke Custom Printed Tapes

Item Code	Description	No Of Colours	Width & Length	Minimum Qty
BESPO1	Custom Printed Tape	1 Colour	50mm x 66M	180 Rolls
BESPO2	Custom Printed Tape	2 Colour	50mm x 66M	180 Rolls
BESPO3	Custom Printed Tape	3 Colour	50mm x 66M	180 Rolls
BESPO4	Custom Printed Tape	1 Colour	75mm x 66M	180 Rolls
BESPO5	Custom Printed Tape	2 Colour	75mm x 66M	180 Rolls
BESPO6	Custom Printed Tape	3 Colour	75mm x 66M	180 Rolls

High quality personalised custom printed tape, printed onto a white vinyl background (other colours also available). Perfect for businesses that want to get their brand out there.

### Machine Tape

Item Code	Description	No Of Colours	Width & Length	Minimum Qty
TMACHCPP	Clear	Hot Melt	48mm x 990M	6 Rolls

This tape is a polypropylene based tape made with hot melt adhesive, which offers better adhesion in colder climates and on recycled cardboard, than standard acrylic PP tape offers. Hot melt adhesive is required for most automatic carton sealing machines.

## Tape Guns & Dispensers

Item Code	Type Of Dispenser	Used With

(\*) Note the items marked with \* are not stocked in our main depot, extended lead times and MOQ's apply.

A full range of disposable plates, cups, cutlery & containers for use in the workplace, canteens and/or during events and functions.

The range of plates stocked are Bagasse disposable plates, which are heavyweight plates made from sugarcane pulp. They are 100% recyclable, biodegradable and compostable. Bagasse plates are cut-resistant, leak resistant and offer far superior strength to conventional paper plates. They are rigid, sturdy and durable, and suitable for serving both hot and cold food.

The range of wooden cutlery held in stock is fully biodegradable, recyclable and compostable, and made from sustainably sourced birchwood. The high quality wood results in a rigid, sturdy, reliable and durable end product that is fully smoothed and splinter free.

Clear microwave containers are also available from stock in various sizes, commonly used for takeaways and for packing food. Can be placed inside microwaves.

## Air Pillow Machines

### Opus Bio Air Pillow Technology

Opus bio air pillow machines are extremely reliable and inflate 100% biodegradable opus-bio products. These machines are available on a FOC lease basis subject to usage of film, or on outright purchase. The machines and rolls of film are extremely cost effective, and are environmentally friendly. We stock all film rolls as well as pre-inflated pillows in this range.

Machine Code	Description	Brand
OPUSAIR	Opus Air Machine - FOC On Lease (Min 10 Rolls Film pcm)	Opus Air
OPUSECO	Opus Eco Machine - Outright Purchase	Opus Eco

Film Roll Code	Type	Width x Length Of Pillows x Meterage Of Film	Brand	For Use With

OPUS5	Bubble Quilt Film	400mm x 260mm x 260M	Opus	Opus Machines

# Strapping Machines

## Semi Automatic Strapping Machine Optimax TMS300

The TMS300 is a reliable semi automatic pallet strapping machine. Simple to operate, feed the strapping around the package and the machine automatically tensions and hear seals the strap. Accepts polyprop strapping from 6mm – 16mm wide on 200mm or 280mm cores. Designed to provide a quick and efficient method of strapping single or multiple packages of varying sizes. The machine features external tension control, a safety cut-out switch when the top is opened and the enclosed cabinet design keeps the strapping clean and dust free.

Model Type	Optimax TMS300
Use	Semi Automatic Pallet Strapping
Dimensions	920mm(w) x 595mm(d) x 785mm(h)
Strap Width Required	6mm - 15.5mm
Strapping Speed	2.5 seconds / cycle (60Hz)
Power Supply	230v / 50 Hz (single phase)
Power Consumption	0.3kw

## Semi Automatic Open-Frame Strapping Machine Optimax ES-102

The Optimax ES-102 is a reliable open frame heavy duty semi automatic pallet strapping machine. Simple to operate, feed the strapping around the package and the machine automatically tensions and hear seals the strap. Accepts polypropylene (PP) strapping from 9mm to 15.5mm wide. Designed to provide a quick and efficient method of strapping single or multiple packages of varying sizes. The machine features mechanical tension control between 15-45kg, an adjustable table height between 750mm-900mm and a safety cut-out switch when the top is opened.

Model Type	Optimax ES-102 Open Frame
Use	Semi Automatic Pallet Strapping
Dimensions	902mm(w) x 575mm(d) x 780mm(h)
Strap Width Required	6mm - 15.5mm
Strapping Speed	2.5 seconds / cycle (60Hz)
Power Supply	230v / 50Hz (single phase)
Power Consumption	0.77kw

## Fully Automatic Strapping Machine Optimax TRS600

The TRS600 Automatic machine is designed for strapping high volumes of cartons and packages. Simply place the pack under the arch, at the press of a button the machine automatically straps the pack. The TRS600 is capable of up to 27 straps per minute providing an excellent solution to your strapping needs. The main features are external tension control – to suit pack application, short feed sensor – to prevent misfeeds. A range of arch sizes are available to suit your application.

Model Type	Optimax TRS600
Use	Automatic Pallet Strapping
Dimensions	1430mm(w) x 620mm(d) x 1540mm(h)
Strap Width Required	9mm - 15.5mm
Strapping Speed	2.2 seconds / cycle (60Hz)
Power Supply	230v / 50 Hz (single phase)
Power Consumption	1.2kw

## Fully Automatic Strapping Machine Optimax AFS900

The optimax branded AFS900 evolve automatic machine is designed for strapping high volumes of cartons and packages. It is based on the proven TRS600 platform, with additional features to increase productivity and reduce downtime. It is one of the most advanced strapping machines in its class. The AFS900 accepts polyprop strapping at both 9mm and 12mm widths (pre-set at 12mm unless otherwise specified). This model comes with an arch size of 850mm (w) x 600mm (h). The AFS900 is capable of up to 35 straps per minute, providing an efficient solution to any businesses strapping needs.

Model Type	Optimax AFS900
Use	Fully Automatic Pallet Strapping
Dimensions	1430mm (w) x 620mm (d) x 1540mm (h)
Strap Width Required	9mm or 12mm
Strapping Speed	2 seconds / cycle (60Hz)
Power Supply	240v / 50 Hz (single phase)
Power Consumption	1.2kw
Tension	Electronic strap tension control
Activation	3 methods - foot pedal, console button, ball switch
Control	Reliable control head

## Strapping Machines

### High Speed Automatic Strapping Machine Optimax HQS80

The Optimax branded HQS80 is an innovative world class high speed strapping machine designed for high volume users. It is capable of up to 60 straps per minute, as opposed to 35 straps on the AFS900 and 27 straps on the TRS600. The HQS80 is also equipped with all industry standard and additional operator-friendly safety features. The HQS80 is designed for strap widths of either 5mm or 12mm (always pre-set to 12mm unless otherwise specified). The arch size on the HQS80 is 650x500mm, meaning it can take a maximum package size of 600x450mm. The main features include:

Model Type	Optimax HQS80
Use	Fully Automatic High Speed Strapping Machine
Dimensions	1200mm (w) x 652mm (d) x 1425-1525mm (h)
Arch Size	650mm (width) x 500mm (height)
Max Package Size	600mm x 450mm
Strap Width Required	5mm or 12mm
Strapping Speed	1 second / cycle
Power Supply	240v / 50 Hz (single phase)
Power Consumption	500W
Tension	Strapping tension range of 1kg-45kg
Machine	167kg

## Friction Weld Strapping Tools – For PP & PET Strapping

Film Roll Code	Item Description	Strapping Width	Brand
RXT-12	RXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	12mm	Optimax
RXT-16	RXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	16mm	Optimax
RXT-19	RXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	19mm	Optimax
ZXT-12	ZXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	12mm	Optimax
ZXT-16	ZXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	16mm	Optimax
ZXT-19	ZXT Friction Weld Sealless Strapping Tool For PP & PET Strapping	19mm	Optimax

Friction weld strapping tools, available for use with 12mm, 16mm or 19mm strapping. Friction weld strapping tools make strapping parcels and pallets significantly faster and easier than using manual hand strapping tools. Friction weld strapping tools such as the RXT and ZXT do not require the use of seals, and significantly improve and ease and speed of strapping. These tools can be used with both polypropylene (PP) strapping coils as well as with polyester (PET) strapping coils. The Optimax range of strapping tools are a well established and proven solution to help enhance operational efficiency within organisations that strap products, or have a requirement to strap products.

## Shrink Wrap Chamber Machines

### Model SC134 Optimax Shrink Chamber Machine

The Optimax branded SC134 heat shrink chamber is the best selling model in the range. It both shrinks and seals a package in one operation, using heat seal technology. The SC134 has a very low power consumption and highly advanced electronic controls. It has maximum sealing dimensions of 320mm x 460mm.

Model Type	Optimax SC134
Power Supply	240V Single Phase, 13A
Machine Dimensions	1120mm (L) x 660mm (W) x 550mm (H)
Sealing Dimensions	320mm x 460mm (DxL)
Max Height Of Package	120mm
Effective Power Consumption	1.3-1.9kw
Max Dimensions Of Film Roll	400mm x 250mm

### Model SC145 Optimax Shrink Chamber Machine

The Optimax branded SC145 heat shrink chamber is a heavy duty reliable machine with a good chamber capacity. It both shrinks and seals a package in one operation, using heat seal technology. The SC145 has a very low power consumption and highly advanced electronic controls. It has maximum sealing dimensions of 420mm x 550mm. Note the SC145 requires a minimum 16A power supply and will not run from a 13A socket (the SC346 model runs from a 13A socket)

Model Type	Optimax SC145
Power Supply	240V Single Phase, 16A
Machine Dimensions	1320mm (L) x 820mm (W) x 645mm (H)
Sealing Dimensions	420mm x 550mm (DxL)
Max Height Of Package	250mm
Effective Power Consumption	1.6-2.3kw
Max Dimensions Of Film Roll	600mm x 250mm

### Model SC168 Optimax Shrink Chamber Machine

The Optimax branded SC168 heat shrink chamber is the largest in the range, with maximum sealing dimensions of 620x800mm. It is a powerful and high capacity model which both shrinks and seals a package in one operation, using heat seal technology. The SC168 has highly advanced electronic controls. Note the SC168 requires 415V 3 phase supply.

Model Type	Optimax SC168
Power Supply	415V Three Phase, 50/60Hz
Machine Dimensions	1575mm (L) x 1020mm (W) x 645mm (H)
Sealing Dimensions	620mm x 800mm (DxL)
Max Height Of Package	250mm
Effective Power Consumption	2.3-3.4kw
Max Dimensions Of Film Roll	800mm x 250mm

## We deliver next working day

All orders placed by 4pm on working days will be dispatched on the same day using a premium next working day courier service.

*Terms & conditions apply.*

# Robopac Pallet Wrapping Machinery

We are proud to be official distributors of the Robopac range of pallet wrap machinery.

We distribute the full range of Robopac pallet wrap machinery, available in both turntable and robotic versions. Call our in-house machine specialists on 0345 224 3691 to discuss your requirements.

## Choosing The Right Pallet Wrapping Machine

The type of machine you need often depends on your usage (the number of pallets wrapped each day, on average) as well as the layout of your operation. The primary consideration is whether your operation is more suited to a turntable machine, which can only be placed in one area and not moved, or whether you would prefer robot pallet wrappers which are moveable and quicker, allowing for more flexibility and speedier operational practises.

The second consideration is then whether you would like a machine that is compatible with machine stretch film that has standard 150% stretch capabilities, or whether you would like a machine that can handle power-pre 250% stretch film. This is further explained below.

## What Stretch Capacity Of Machine Pallet Wrap Do You Need In Your Operation?

One of the most common questions is the type of machine pallet wrap that is needed by a business/operation.

The stretch capacity of film is the maximum % capacity that the film can stretch to, during its wrapping cycle on the machine, to maximise the meterage from the roll. For example, using an entry level machine at a setting of 150% stretch capacity can make each metre of film stretch up to 1.5 metres, assuming the film has 150% stretch capacity. Using a higher end machine at a setting of 250% stretch capacity can make each metre of film stretch up to 2.5 metres, assuming the film has 250% stretch capacity. Certain machinery (usually entry-level) is only designed to work with standard 150% capacity stretch film, whilst other machinery (usually higher end) is designed to work with power-pre stretch film that has a stretch capacity

of 250% or more. The trade off between the capital expenditure incurred for a machine, and the saving on film due to the additional stretch capacity, is the major consideration a business needs to make when determining which machine is right for them.

## What is the benefit of purchasing a machine that is compatible with power-Pre 250% Stretch Film

A 250% stretch capacity means it can stretch by up to 250% of the length of the roll, whereas a 150% stretch capacity means it can only stretch by up to 150% of the length of the roll. For each metre of film, a 250% capacity stretch film can stretch to a maximum of 2.5 metres, whereas a 150% capacity stretch film can only stretch it to a maximum of 1.5 metres.

For operations that wrap more than 30 pallets a day, we always recommend using power-pre machine pallet wrap film with a 250% stretch capacity. The price of RoboPac pallet wrap machinery with a 250% capacity stretch film is higher than entry level RoboPac machinery that take a 150% capacity stretch film, hence its only worth the additional capital expenditure if your business wraps more than 30 pallets a day on average. You then generally will make the difference back in film / consumable savings over a 12 month period, due to the additional stretch generated on the film.

## Summary of RoboPac Pallet Wrapping Machines Available

A summary chart of RoboPac pallet wrapping machinery available in as below, detailing the specifications of each machine, and which machines are suitable for 150% stretch film and 250% stretch film accordingly:

	Ecoplat plus base	Ecoplat plus FRD	Masperplat Plus PGS	Robot Master M80 FRD	Robot Master 110 PDS	Robot S7 PG3S

## Robopac – Entry Level Machines – 150% Stretch Compatibility

### Robopac Ecoplat Plus Base Turntable Machine

The Robopac Ecoplat Base is a perfect entry level pallet wrapping turntable machine is the perfect introduction to automated pallet stretch wrapping. Recommended for businesses who wrap up to 30 pallets a day, although can be used for up to 150 pallets a day on average. The machine provides pre-set programming and consistent wrap quality for the packaging professional. The control panel on the Ecoplat Plus Base pallet wrapper allows you to easily set all the functions of the cycle through the use of electromechanical buttons. For use with standard 150% stretch machine film.

Item Code	ROBOECO
Name Of Machine	Robopac Ecoplat Plus Base
Type Of Machine	Turntable Pallet Wrapping Machine
Suitable With (Film Type)	Standard 150% Stretch Machine Film
Maximum Load Weight	2000kg per pallet
Maximum Wrapping Height	2200mm
Turntable Diameter	1650mm
Maximum Tower Height	2490mm
Carriage	FRD
Tension	Adjustable Tension
Plate Rotation Speed	Variable, 4-10 rpm
Power Supply	230-240V, 13A 50-60Hz Single Phase
Weight	285kg
Loading Ramp	Optional (Additional Purchase)

# Robopac Pallet Wrapping Machinery

## Robopac Ecoplat Plus FRD Turntable Machine

The Robopac Ecoplat FRD is a perfect entry level pallet wrapping turntable machine, with all the benefits of the Ecoplat Plus Base model in addition to a more advanced LED display control panel, allowing for more options on wrapping cycles (see features below). For use with standard 150% stretch machine film.

Item Code	ROBOECOFRD
Name Of Machine	Robopac Ecoplat Plus FRD
Type Of Machine	Turntable Pallet Wrapping Machine
Suitable With (Film Type)	Standard 150% Stretch Machine Film
Maximum Load Weight	2000kg per pallet
Maximum Wrapping Height	2200mm
Turntable Diameter	1650mm
Maximum Tower Height	2490mm
Carriage	FRD-PPS, Advanced LED Display
Tension	Adjustable Tension
Plate Rotation Speed	Variable, 4-10 rpm
Carriage Speed	Variable - 1.4-4 m/min
Power Supply	230-240V, 13A 50-60Hz Single Phase
Weight	315kg
Loading Ramp	Optional (Additional Purchase)

## Robopac Robot Master M80 FRD Machine

The Robopac Robot Master M80 FRD is a market leading innovative mobile and robotic solution to pallet wrapping requirements for small-medium size organisations. Recommended for businesses who wrap up to 30 pallets a day, although can be used for up to 150 pallets a day. Designed for use with standard 150% machine pallet stretch film, this machine acts as a self propelled robot for wrapping pallets, and can be used to wrap large or irregular size pallets. No operator assistance is required to wrap pallets once the machine is placed in position.

The control panel on the Robot Master M80 FRD contains 10 adjustable parameters and a choice of 3 programmes, with a graphical display and a jog wheel. The machine is designed for use in industrial environments and can operate in the most challenging conditions/space. Further benefits include a vocalised start signal and feature lights to warn nearby staff during the wrapping cycle, and the ability to work around large pallets and irregular shape pallets. Easy to store in a small space, and only requires a small space to work around the pallet.

Item Code	ROBOM80FRD
Name Of Machine	Robopac Robot Master M80 FRD
Type Of Machine	Robotic Pallet Wrapping Machine
Suitable With (Film Type)	Standard 150% Stretch Machine Film
Maximum Load Weight	No limit - can wrap any pallet
Battery	2 x 12V 75A AGV (up to 150 pallets/charge)
Maximum Wrapping Height	2200mm
Maximum Tower Height	2823mm
Carriage	FRD
Tension	Adjustable Tension
Rotation Speed	35-65 m/min
Carriage Speed	Variable - 1.4-4 m/min
Power Supply	100-240V
Installed Power	0.3kW
Loading Ramp	Not Required

## Robopac – Machines For Larger Users (30+ Pallets Per Day) – 250% Stretch Compatibility

### Robopac Masterplat Plus PGS Turntable Machine

The Robopac Masterplat Plus PGS is an excellent machine for medium to large size businesses and corporations who wrap more than 30 pallets a day. Designed for use with power-pre 250% stretch, using this machine saves a considerable amount of time, in addition to using considerably less stretch film (as a result of the stretch capability), helping to keep consumable costs to an absolute minimum. The colour graphic display control panel is very simple to use, with options for both 'easy mode' and 'advanced mode' and programme selection occurs via a simple turn wheel. Adjustable parameters and features include an indexed turntable (stops at same position every time), several cycles to choose from, and variable rotation speeds.

Item Code	ROBOPGS
Name Of Machine	Robopac Masterplat Plus PGS
Type Of Machine	Turntable Pallet Wrapping Machine
Suitable With (Film Type)	Power-Pre 250% Stretch Machine Film
Maximum Load Weight	2000kg per pallet
Maximum Wrapping Height	2200mm
Turntable Diameter	1650mm
Maximum Tower Height	2560mm
Carriage	PGS
Tension	Adjustable Tension
Plate Rotation Speed	Variable, 4-12 rpm
Carriage Speed	Variable - 1.6-4 m/min
Power Supply	230-240V, 13A 50-60Hz Single Phase
Weight	315kg
Loading Ramp	Optional (Additional Purchase)

## Robopac Pallet Wrapping Machinery

### Robopac Robot Master 110 PDS Machine

The Robopac Robot Master 110 PDS is a market leading innovative mobile and robotic solution to pallet wrapping requirements for medium-large size organisations. Designed for use with power-pre 250% stretch, using this self propelled pallet wrapping machine saves a considerable amount of time, in addition to using considerably less stretch film (as a result of the stretch capability), helping to keep consumable costs to an absolute minimum. This machine can be navigated using a steering arm with forward and reverse manual control, and can be used to wrap large or irregular size pallets. No operator assistance is required to wrap pallets once the machine is placed in position.

The control panel on the Robot Master 110 PDS contains 10 adjustable parameters and a choice of 3 programmes, with a graphical display and a jog wheel. The machine is designed for use in industrial environments and can operate in the most challenging conditions/space. Further benefits include a vocalised start signal and feature lights to warn nearby staff during the wrapping cycle, as well as the ability to work around large pallets and irregular shape pallets. Easy to store in a small space, and only requires a small space to work around the pallet.

Item Code	ROBO110PDS
Name Of Machine	Robopac Robot Master 110 PDS
Type Of Machine	Robotic Pallet Wrapping Machine
Suitable With (Film Type)	Power-Pre 250% Stretch Machine Film
Maximum Load Weight	No limit - can wrap any pallet
Battery	2 x 12V 110A lead-acid (up to 200 pallets/charge)
Maximum Wrapping Height	2200mm
Maximum Tower Height	2823mm
Carriage	PDS
Tension	Adjustable Tension
Rotation Speed	35-65 m/min
Carriage Speed	Variable - 1-4.6 m/min
Power Supply	100-240V
Installed Power	0.4kW
Loading Ramp	Not Required

### Robopac Robot Master S7 PG3S Machine

The Robopac Robot S7 PG3S is a market leading innovative mobile and robotic solution to pallet wrapping requirements for medium-large size organisations. Designed for use with power-pre 250% or 300% stretch film, using this self propelled pallet wrapping machine saves a considerable amount of time, in addition to using considerably less stretch film (as a result of the stretch capability), helping to keep consumable costs to an absolute minimum. This machine can be navigated using a steering arm with forward and reverse manual control, and can be used to wrap large or irregular size pallets. No operator assistance is required to wrap pallets once the machine is placed in position.

The control panel on the Robot S7 PG3S contains 12 pre-set programmes, with a graphical display. This machine also contains a 24v 110amp traction battery (the same as a standard forklift truck) and a built in battery charger which is able to charge the battery from a standard 13 amp single phase supply. The machine is designed for use in industrial environments and can operate in the most challenging conditions/space. Further benefits include a vocalised start signal and feature lights to warn nearby staff during the wrapping cycle, as well as the ability to work around large pallets and irregular shape pallets. Easy to store in a small space, and only requires a small space to work around the pallet.

Item Code	ROBOPG3S
Name Of Machine	Robopac Robot Master S7 PG3S
Type Of Machine	Robotic Pallet Wrapping Machine
Suitable With (Film Type)	Power-Pre 250% or 300% Stretch Machine Film
Maximum Load Weight	No limit - can wrap any pallet
Battery	24V 110 amp (up to 250 pallets/charge)
Maximum Wrapping Height	2200mm
Maximum Tower Height	2540mm
Carriage	PDS
Tension	Adjustable Tension
Rotation Speed	35-80 m/min
Carriage Speed	Variable - 1.5-5 m/min
Power Supply	100-240V
Installed Power	0.3kW
Loading Ramp	Not Required

## Cardboard Shredder Machines – Conversion To Void Fill

### Heavy Duty Cardboard Waste Machine Ecopax OP316S2

The ecopax OP316S2 machine represents a 100% environmentally friendly solution to your cardboard waste, converting it into a form a loose fill thats extremely effective for packing purposes. The machine creates void fill from waste cardboard. Ecopax Converters turn small quantities of old cardboard into lots of packaging material within a short time. They create either Padding Material or Flat padding mats which reduce packaging costs and are ecologically beneficial. Operator friendly feeding of cartons with punched measuring scale for precise packaging units. Various sizes of cardboard boxes are automatically processed and tailored in one single step. Can take single wall and double wall cardboard. Further product specifications are detailed below:

PRODUCT SPECIFICATIONS SUMMARY
Cut width: 320mm
Cut thickness: 10mm
Run time: 2 hours
Production output: 1-2m <sup>3</sup> /hr
Throughput rate: 10 metre/min
Dimensions: W660mm x D660mm x H980mm
Weighs: 92kg
Footprint: 0.5sq.m.
Power supply: 1,0 kw (1ph) 230v 50-60Hz
Warranty: 12 months as standard

### Heavy Duty Cardboard Waste Machine Ecopax OP320S2

All the same benefits as the OP320S2 model but has a faster production output and can cut thicker pieces of cardboard. Specifications as below:

PRODUCT SPECIFICATIONS SUMMARY
Cut width: 320mm
Cut thickness: 12mm
Run time: 2 hour
Production output: 2-3m <sup>3</sup> /hr
Throughput rate: 12 metre/min
Dimensions: W660mm x D660mm x H1060mm
Weighs: 110kg
Footprint: 0.5sq.m.
Power supply: 1,1 kw (1ph) 230v 50-60Hz
Warranty: 12 months as standard

### Heavy Duty Cardboard Waste Machine Ecopax OP422S2

All the same benefits as the OP422S2 model but has a much faster production output, and can cut wider & thicker pieces of cardboard. Also has an unlimited run time. Specifications as below:

PRODUCT SPECIFICATIONS SUMMARY
cut width: 420mm
cut thickness: 15mm
run time: Unlimited
production output: 4-6 m <sup>3</sup> /hr
Throughput rate: 13 metre/min
dimensions: W660mm x D660mm x H980mm
weighs: 125kg
footprint: 0.5sq.m.
power supply: 1,8 kw (3ph) 200-400v 50-60Hz
warranty: 12 months as standard

## Need more assistance?

# Water Activated Tape Machines

## Optimax OM700 Water Activated Tape Machine

The Optimax OM700 is ideal for high volume, fast-paced shipping environments. The OM700 Optimax branded gummed paper tape machine is a proven solution used to secure parcels with maximum efficiency while consuming minimal tape. Water activated tape (also known as gummed paper tape) provides a 100% environmentally friendly solution with paper tape that has great presentation on boxes. It also save on your business tape consumption - the machine produces the exact strip dimension required and only one strip is required to seal each side of the box as demonstrated. Furthermore, the OM700 machine is compatible with all water activated tape rolls (both plain and reinforced, with roll lengths up to 305M), helping to optimise packing efficiency and reducing the time required for change of rolls. Further information as below:

- Fast machine: Tape output of up to 60 metres per minute.
- Easy To Use: Specify tape length and dispense from 15cm to 145cm, and can also be configured to dispense 6 different lengths in sequence.
- Less Refills: 2L water bottle and compatibility with 305M tape rolls means less refills and saves on downtime.
- Automated: Speeds up operations and reduces chance of injury or fatigue from operatives.
- Sustainable: Compatible with reinforced and recyclable non-reinforced Water Activated Tapes.

Model Type	Optimax OM700
Dimensions	32.5cm x 53.9cm x 30.9cm
Shipping Weight	12kg
Tape Roll Capacity	Up to 255mm Diameter, 80mm Width, 305M Length
Dispensing Length	15cm to 145cm using one of 14 preset length keys Up to 290cm using 2X key Up to 305cm using random key
Water bottle capacity	2 Litres
Tape compatibility	Plain or reinforced water activated tape
Power Requirement	220-240V AC, 50/60Hz, 2a Single Phase
Safety Compliance	Meets or exceeds UL, CE and CSA standards

## Betterpack Water Activated Tape Machine BP500

Model Type	Betterpack BP500
Dimensions:	18.0" L x 12.0" W x 10.5" H (45.7 cm L x 30.5 cm W x 31.75 cm H)
Shipping Weight:	30 lbs. (13.6 kg)
Tape Roll Capacity:	1.5" to 3" wide (3.8 cm to 7.62 cm) Up to 7.5" diameter (17.78 cm) Up to 600' length roll (183 m)
Dispensing Speed:	45" per second (114 cm per second) 6" to 45" using one of 14 preset length keys Up to 90" using 2X key
Dispensing Length:	Up to 120" using Random key
Blades:	Guillotine sheer with blade lifter for easy cleaning
Water Brushes:	3 for consistent, uniform tape wetting
Water Bottle Capacity:	44 ounces (1.3 liters)
Electrical Requirements:	Available in 115 volt and 220 volt models
Safety Compliance:	Meets or exceeds UL, CE and CSA standards
Warranty:	2 years parts, 6 months labor

## Betterpack Water Activated Tape Machine BP555

The rugged and reliable Better Pack 555 offers simple one-touch dispensing of reinforced and non-reinforced water-activated tape. Durable construction built-in safety features and fast tape dispensing make the Better Pack 555 the perfect choice in demanding work environments with medium- to high-volume packaging needs.

Model Type	Betterpack BP555
Dimensions	18.0" L x 12.0" W x 10.5" H
Shipping Weight	15.4kg
Tape Roll Capacity	1.5" to 3" wide (3.8 cm to 7.62 cm) Up to 7.5" diameter (17.78 cm) Up to 600' length roll (183 m)
Dispensing Length	15cm to 145cm using one of 14 preset length keys Up to 290cm using 2X key Up to 305cm using Random key
Blades	Guillotine sheer with blade lifter for easy cleaning
Water Brushes	3 for consistent, uniform tape wetting
Water Bottle Capacity	44 ounces (1.3 liters)
Tape compatibility	Plain or reinforced water activated tape
Power requirement	220-240V AC, 50Hz, 500W
Safety Compliance	Meets or exceeds UL, CE and CSA standards
Warranty	12 month return to base warranty as standard

- Simple and Straightforward
- 14 preset length keys offer one-touch dispensing of tape lengths from 6 to 45 inches. The '2X' key doubles any preset length. Additionally press and hold the Random key for custom lengths up to 120 inches.
- Rugged, Reliable and Safe
- Steel side frame construction covered in durable ABS plastic. Meets or exceeds UL CE and CSA standards for operator and electrical safety.
- Safety interlock switch disables the cutting mechanism when cover is open
- Fast and Efficient
- Adjustable top heater warms the water, maximizing the tape's adhesive and bonding properties
- Accessories to Optimize Performance
- Suitable for plain & reinforced tape up to 70mm wide
- Fully electronic control system
- Automatic function, programmable keys & random length key, which dispenses tape to any length.
- Largest tape capacity in the industry.
- Extra heavy duty, self oiling blade.
- 20% increase in motor power
- Extra long (detachable) electric cord
- Imprinting increases security, tracking and branding
- Conveniently holds tape in upright position
- No wrestling with long lengths of tape, just grab and apply
- Simplifies and speeds up the packaging process
- The BP555 can also be used with AMD1 (optional extra), which is an automatic measuring device for random size cartons

SEJ Distribution Ltd

  
GlobePackaging

Our retail/e-commerce arm, under which we supply the nationwide market on a volume basis. Orders can be placed online on our website or by calling us, with next working day delivery nationwide on all orders placed by 4pm.

SEJ Distribution Ltd

  
PACKAGING EXPRESS

This is the trade arm of the company, under which we supply businesses and merchants with packaging on a nationwide basis, using tailored trade pricing depending on volumes, location etc. We have a team of dedicated account representatives to take care of all your needs, and our own fleet of vehicles for deliveries, as well as external transport, for guaranteed next working day delivery on all stock lines.
